

Nuclear Alert

the newsletter of Greater Manchester CND

We really do store everything in the property lock-ups

GMD CND at Glastonbury

This week the Greater Manchester and District CND team is heading for the sunshine (hopefully) of the south-west and Glastonbury Festival.

Every year we take a team of volunteers to run a property lock-up service, mobile phone charging and most importantly speak to festival-goers about our work to end nuclear weapons. As well as encouraging people to get involved with CND campaigns it's a good fundraiser for us too. If you're going to Glastonbury this week, or know anyone who is, make sure to pop along, get your phone charged and say hello to the team.

Independence from America

Tuesday 4 July 2023

This year we will once again be joining activists from across the north of England to call for independence from America. The US base at Menwith Hill is a key component of the spy network run by the US Government through the National Security Agency. The event will feature speakers including Peter Burt from UK Drones Campaign, Prof Fiona McCauley from Peace Studies in Bradford and Dave Webb from CND. There will also be music and food. For transport from Greater Manchester contact Jacqui at gmdcnd@gn.apc.org. More information on the event is available on the [Menwith Hill Accountability Campaign website](https://menwithhill.org.uk/).

Upcoming events

June:

21-25: Glastonbury Festival- come and say hello if you're going

23: GMDCND Worker Jacqui takes part in discussion on campaigning at Glastonbury

August:

6 - Hiroshima Day - details of events coming soon

9 - Nagasaki Day -details of events coming soon

October:

1-4: Tory Party Conference: details of protests and activities coming soon

14: Nuclear Power Conference in Manchester: more details soon

Scan the QR code to find all the links you need to get involved with GMDCND. Why not pass it on to a friend.

No US nukes in the UK!

We joined our friends from around the country in the Suffolk sunshine at the end of May to once again protest the return of US nuclear weapons to the UK. A great turnout and good to see so many young people at RAF Lakenheath.

**No Need for Nuclear;
renewables can do it
14 th October 2023,
Mechanics Institute**

Save the date:

nuclear power conference

We're excited to announce that later this year we will be hosting a conference on nuclear power - showcasing why it simply isn't needed for the future. We'll be joined by trade unionists and other experts who will outline the case for renewables to solve our energy needs of the future. As Hinckley Point continues to see costs spiral and timeframes delayed, this is a vital conversation. More info coming soon but save the date for now.

CND Beermats!

Coming to a pub near you

We're really excited to be working with lots of CND groups and others who want to see the end of nukes to produce these great beermats. The idea is to visit your local pub (or maybe even more than one) and use them to start a conversation with other drinkers about nuclear weapons and the need for disarmament. We'll be launching them at Glastonbury this year, but if you want some for your local- get in touch with the office.
